Dear Newport Harbor Sailing Foundation:

Thank you so much for giving me the chance to experience my first Opti Team Trials in Stamford Connecticut. I was so happy to qualify to attend this event at the age of 10. There were only 10 other kids my age who qualified to go to Team Trials this year out of 220. Over the 6 days of sailing we experienced all different conditions, lots of rain, heavy winds (20+ knots) and crazy currents to light air and chop. It is a great experience to compete with the best 220 kids from all over the United States. Each start had over 75 boats which is a big challenge to get a good start with that many kids on the line.

I met a lot of new people from many different states. Thank you for the experience and I hope that I have the opportunity to go again next year.

Sincerely,

Jake Mayol
